

Wall systems

DA45

Essential lines and balanced proportions define the DA45 Day System, a modular concept designed to fit any space with elegance and functionality. The absence of visible handles enhances the continuity of the line and the geometric cleanliness of the modules. The 45° angled cut allows a natural and comfortable grip, combining practicality and style without interrupting the visual balance of the design.

45° DOOR, ELEGANCE AND CONTINUITY IN THE DAY SYSTEM

The 45° door represents one of the distinctive elements of the DA45 day system. The sloping cut of the edge allows opening without a handle, ensuring a clean, continuous line that enhances the purity of the surfaces. This solution not only improves the overall aesthetics of the cabinet, but also provides greater ergonomics in daily use.

PROTRUDING TOP

The projecting top defines the identity of the living system with a bold and sophisticated architectural sign. The surface, which extends beyond the line of the doors, creates a delicate contrast of volumes and materiality, emphasizing the formal cleanliness and constructive precision of the design. This seemingly simple detail gives depth to the composition and lightens the perception of the whole, transforming the cabinet into a piece of furniture with a strong aesthetic value.

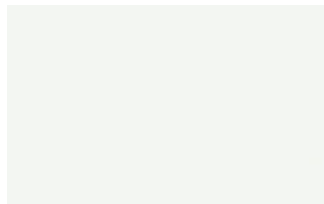

FINISHES

Textures, essences or lacquers for the doors, from textured marbles to stone or wood-effect surfaces for the tops...choose how to customize your DA45 day system.
