*** Nelle tonalità scure può evidenziarsi la fiammatura del legno nelle fresata che rende non omogenea la tinta** . In the dark shades the flaming of the wood may be highlighted in the grooves which makes the color uneven
Dans les tons sombres le flamboiement du bois peut être mis en évidence dans les sillons qui rend la couleur inégale . En las tonalidades oscuras puede resaltarse el flameado de la madera en los surcos lo que hace que el color sea desigual.
