

SPLIT

Split
to perfection

Arik Levy (FR)

EN

Woodbending reached new heights under the supervision of world-renowned designer Arik Levy. The Split collection is a world first: its seat base is made from a solid piece of wood that has been split and bent in opposite directions! The split wood – one of our most complex manufacturing techniques – is both aesthetic and functional. The large Split product family includes a chair, an armchair, a barstool and a lounge chair.
