

Beds

Tamago

Sweet and essential features for the wooden frame of the Tamago double bed, combined with the enveloping embrace of the softly shell-shaped headboard, an invitation to snuggle up. The only quirks: the stitching in the centre of the headboard and the possibility, in the leather version, to cover it with different colour tones between the outside and inside.

DOUBLE BED WITH WOODEN FRAME

You can decide to stain the wooden structure of Tamago in different wood finishes. The bed frame is made of solid ash, as are the footboard and the feet, which curve gently towards the floor, while drawing a line of continuity with the side spars.

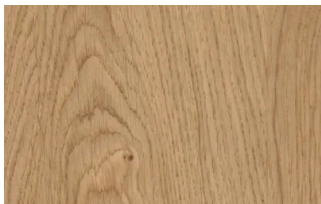

FINISHES

Leather, leather or eco-leather: what's your choice? Discover the finishes available to you for upholstering the Tamago bed.
