

BONALDO

Slot

Designer: Giuseppe Viganò

The Slot modern dining table embodies the extensive formal and technological research that has always underpinned Bonaldo's products. For this collection, designer Giuseppe Viganò has drawn inspiration from the world of geometry, from which he has borrowed different shapes and harmonized them in a single design. The collection plays with minimal shapes expressed in space: the horizontal top is supported by two supports with a characteristic H shape, one vertical and one slanted, united by a transverse element that conveys a sensation of movement. The legs and central stem are made of metal, while the top with rounded corners is available in numerous finishes, from wood to ceramic, marble and crystal, creating combinations of materials that are always different and can respond to any furnishing and style requirement.
